FRACARRO

RK42U 810S

Rack

The 19" 800x1000 42U SERVER rack cabinet, due to its stability and load capacity, is designed for server rooms and the installation of multiple telecommunications, IT and audio/video equipment.

Its dimensions allow the adoption of vertical channels, for easy management of patch cords and optical patch cords, both front and back working, and the installation of racks up to 800 mm deep.

The fully demountable and easy to re-assemble structure makes it ideal in the presence of architectural barriers. The cabinet is delivered assembled.

Technical Chars

- Steel frame
- 4 adjustable uprights
- Grilled front door
- Removable side and rear panels
- Pre-arrangement on roof for installation of ventilation system
- Provision for cable access from below and above
- Adjustable feet
